Full-Length Video Submission and Review Process

Articles must be submitted to one of the sections. *

Section Policy

Author(s) submit a full-length edited video that can be directly reviewed. The submission form will also require the video title, author name(s), and credits for all roles in producing the video (filming, editing, etc.).

For initial review, the video can be submitted either as a video link (e.g. YouTube, Google Drive) inserted into the "Submission Video Link Template" below or uploaded as an accepted file format in the next step "Upload Submission". The video will be reviewed for technical content and format by experts in the field and committee members.

After review, the video may be *rejected*, *preliminarily accepted with required changes*, or *accepted* as it is. Feedback will also be provided about specific issues or concerns that need to be addressed. Then, the author(s) must revise and resubmit the video until it can be *accepted* as is.

[Optional] Please click here to access the Submission Video Link Template. (Upload this file in the next step in "Upload Submission").

[Mandatory] Please click here to access the IEEE PELS Educational Videos Keywords list that you need to enter during the submission process
